AllSecurityEvents.com

Connecting the Security Profession

AllSecurityEvents.com is the new source of information for Security Conferences, Exhibitions, Seminars, Webinars, Networking and Charity Events... globally.

It enables event organisers and professional bodies to plan their activities to avoid clashes and maximise attendance by promoting them to the widest possible audience.

Security Professionals can plan their time better and attend events of interest to them without being presented with the dilemma of choosing which of three events to attend on any given day.

In the UK, we support the work of The Security Commonwealth whose 40 plus member organisations are listing their events on the site.

We are working with several partners to both promote visitors to the site and event listings and to distribute our Events Newsletter

ASIS International is leading association for security professionals globally, yet with a local presence. With chapters in over 70 countries, members are security practitioners, each of whom has a role in the protection of assets, people, property, and/or information. The ASIS Board Certified and globally recognised CPP, PCI, and PSP qualifications provide objective proof of an individual's professional knowledge and experience. Global conferences include Europe, Middle East, Asis Pacific and the US.

The UK Chapter offers unparalleled networking opportunities; quarterly conferences; an award-winning newsletter; free CPE Events and programmes for Women in Security; Young Professionals and those transitioning from the Police and Military into Security

[Copybook](#) is a global business network enabling companies to trade and connect in order to facilitate and increase business transactions worldwide.

Now covering all industries, Copybook is a leading platform of communication between buyers and sellers of all products and services.

We integrate with thousands of trade shows worldwide, allowing you to arrange real meetings at live events and we are proud to announce that last year we were able to help customers generate new business amounting to \$2 billion in new revenue. Why not add your company for FREE and join the thousands of organisations that are already benefiting from our service? www.copybook.com

[Maritime Connector](#) brings the latest vacancies in the maritime industry. With over 90.000 registered seafarers and over 3.600 maritime companies and recruitment agencies we collaborate with, Maritime Connector is the ultimate place to find job at sea as well as seagoing personnel.

Maritime Connector web portal contains everything a maritime professional needs; maritime news, maritime events and maritime jobs all at one place. We help seafarers to find new job opportunities and boost their careers. At the other hand, we help maritime recruiters to find their crew fast and to stay in line with the latest trends in recruitment

Maritime Security Review is the premier, free-to-consume resource for maritime professionals to keep up to date with industry news. We provide an overview of the top stories, along with unique insights into areas of particular interest.

Visit us at <http://www.marsecreview.com>, or subscribe to our email mailing list at www.marsecreview.com/why-subscribe/.

Police Aviation News is a monthly news journal for the airborne emergency services industry from PAR.

Despite the title, we cover news about every aspect of emergency services aviation, from air ambulance to fire to maritime patrol.

A wide experience of law enforcement aviation in the United Kingdom and other countries enables PAR to maintain a close working relationship with the providers of law enforcement and emergency services aviation throughout the world.

[Ship Technology Global](#) is the essential reading material for decision-makers in the shipping industry, bringing you the latest news and analysis in an exciting, interactive format. Produced by a team of experienced editors and contributors, this monthly magazine brings together insights into key market and investment trends, policy changes affecting the industry as well as new technological developments. Keeping a finger on the pulse of the global shipping industry, we take a look at the latest in shipbuilding and engineering, cruise operations and commercial shipping as well as environmental and safety considerations across the shipping sector.
